1/2

Landscape aims to be part of a project. It is not understood as an item apart, but instead relates to its environment and melds with it. It is the project that is important, not the product, and this is its essence. Its rationalist construction seeks to give order, form and structure to the outdoor space, although, in terms of function, it has been designed to give shelter: to shade and cool or protect from the rain and wind.

Maintenance

Clean with mild soap using sponge or cloth. Be gentle while cleaning, do not scrub aggressively the fabric. Once cleaned please make sure you remove soap excess.

In case of aggressive stains clean with diluted household bleach.

Clean stains promptly. The longer it remains, more difficult will be to remove.

Once cleaned the fabric steam iron the fabric. Just use steam, be carefull NOT placing the iron directly in the fabric it will get damage.
