Half Dome Overhang lamp

Description

Half Dome is a great mountain with endless variations of lighting and sky situations and seasonal characteristics; the many images reflect the varied creative responses to this remarkable granite monolith. The moonlight has a particular size of diameter as people imagine it. The dimension of Half Dome light follows our image of the moonlight size.

This outdoor light, suspended over the structure, seems to be the moonlight.

Information

Cleaning Instructions

Use a soft damp cloth, with soap or neutral detergent.
Do not use alcohol or other solvents.

This product is suitable for indoor and outdoor.

This symbol on the product or its packaging indicates that it must not be treated as household waste. It should, in fact, be handed in at a recognised collection point for recycling electrical and electronic equipment. For more detailed information about the recycling of this product, please contact your local city office, your household waste disposal service or the shop where you purchased the product.

Warning

If the wire or flexible cord is damaged, it must only be changed by the manufacturer, their Service Dept. or qualified personnel in order to avoid risk.
