cm/inch

Superfan is a tri-blade fan whose geometry is simply defined through three angled blades, meeting at the rotating axis.

All design decisions are made to maximise performance and improve efficiency: the angle of the blades, the lightness of the aluminium material and the selection of the motor for accurate speed control and quiet function.

The two fan versions operate with equal efficiency both with and without a pendant, offering flexibility of use for different ceiling heights.

## Technical info

Fixation	Ceiling
Engine type	Super silence motor BLDC (brushless direct current)
No. of speeds	6-speed selection
IP	44
Voltage	220-240, 2A
Hertz	50/50 Hz
Weight	7,5 kg (16,5 lbs). It must be installed on a structure capable of supporting 30kg (66lbs)
Max. Power consumption	Less than 35W
RPM	up to 130 rpm
Type of control included	Remote control / Fan reverse function control
No. of blades	3
Body/Structure	Aluminium

## Warning

Rotating fan blades.

Can cause serious injury or cut.

Keep hands clear.

Safety stop. If something gets in the way of the blades, the fan stops

## Materials

Aluminium  
Antioxy, Heavy Load, Resistant  
En-1421, Kettalize-It, Anti-  
Scratch, Easy Clean, Flame  
Retardant M1, Eco Friendly  
Ecoembes Recycling Process

Includes remote control The  
instalation requires a 220-240 2A  
50/50Hz supply connection. The  
client must

## Maintenance

Clean with mild soap using  
sponge or cloth. Be gentle  
while cleaning, do not scrub  
aggressively the fabric. Once  
cleaned please make sure you  
remove soap excess.  
In case of aggressive stains  
clean with diluted household  
bleach.  
Clean stains promptly. The  
longer it remains, more difficult  
will be to remove.

Once cleaned the fabric steam  
iron the fabric. Just use steam,  
be carefull NOT placing the  
iron directly in the fabric it will  
get damage.
